Contact:	Carleigh Hannon	
Free/Busy:	busy	
Description:	<p>Career fairs are a great way to connect with potential employers. The School of Informatics, Computing, and Engineering hosts two career fairs each academic year one during the fall semester and one during the spring semester. By attending the career fair, you can learn more about specific companies and organizations, investigate open positions and career possibilities, and discover the skills and qualifications you need to develop to become a more competitive candidate in the future.</p>
