Standard 2: Campus Tree Care Plan

All of the following criteria must be addressed in your Campus Tree Care Plan:

1. Clearly stated purpose.

2. Responsible authority/department—who enforces the Campus Tree Care Plan.
3. Establishment of a Campus Tree Advisory Committee, terms of the representatives, and role committee plays.
4. Campus tree care policies for planting, landscaping, maintenance and removal including establishing and updating a list of recommended and prohibited species; managing for catastrophic events.
5. Protection and Preservation policies and procedures—include process for implementing tree protection plan including step-by-step process that every project must follow including construction and trenching.
6. Goals and Targets—develop at least one goal and target for your Campus Tree Plan. These could include (but are not limited to) tree canopy target, development of a link between the Campus Tree Plan and other green initiatives on campus or in the community; completion of a campus-wide tree inventory, etc. Include how the goal will be measured.
7. Tree damage assessment—enforcement, penalties, and appeals.
8. Prohibited practices.
9. Definitions of terminology related to campus trees.
10. Communication strategy—how the campus tree care plan will be communicated to the college community and contractors to heighten awareness about policies and procedures as well as the goals of the institution.

DATE CAMPUS TREE CARE PLAN ESTABLISHED
12/14/12

* Attach a copy of your Tree Care Plan if it has been changed or updated since you last applied for recognition. If no changes have been made to the plan, summarize the progress of your Goals and Targets below. Your Tree Care Plan is good for five years. Please upload an updated plan every sixth year of recognition.
