Overtime Policy

Scope
All overtime eligible staff (support staff and professional non-exempt staff).

Policy Statement
SoIC personnel will follow the procedures below to comply with overtime laws and policies.

Reason for the Policy
To ensure compliance with FLSA (Fair Labor Standards Act) and to document SoIC’s position on payment of overtime.

Procedures
1. Supervisors and employees should follow the UHRS overtime policy http://hr.iu.edu/policies/uwide/overtime.html.
2. Employees must seek prior approval from their supervisor for working overtime.
   a. Employees consistently requesting to work overtime can be a sign of overload and/or bad workflow management. The supervisor should, where possible, try to address the cause of the overload and correct it.
   b. As a general rule, overtime will be compensated as compensatory (comp) time.
      i. Supervisors may seek approval from the Sr. Director of Administration and Finance to have overtime paid, instead of comp time.
      ii. Reasons for considering the payment of overtime include, but are not limited to:
         i. The employee has reached 40 hours of comp time.
         ii. Financial hardship of the employee. An example could be the employee has to pay for child care to be at work for the extra work time.
         iii. Salary equity issues, where payment of valid overtime may temporarily help address a salary inequity until a more permanent solution can be found.
         iv. Whether the supervisor has budgetary funds available to cover the overtime.

Responsible Parties
FLSA mandates that employees are paid for all time worked. Employees must record all time worked. Supervisors are responsible for checking time is recorded accurately and completely. Failure to report all time worked can leave IU at risk of FLSA fines and liable for payment of all unreported hours worked.

Definitions
FLSA – Fair Labor Standards Act, the federal law governing overtime.
