Adding a Research Experience for Undergraduates (REU) opportunity to the Luddy Website

The Luddy School offers faculty the ability to enter their own research opportunities for undergraduates and to advertise them on the Luddy Website. There are a variety of filters for students to find relevant REU's including by date, department, and type of compensation.

https://luddy.indiana.edu/research/student-research/undergrad-research-opportunities.html

In order to add an entry into the REU database, faculty can log in at the following URL: https://luddy.indiana.edu/apps/reu/

Field Descriptions:

- **Requesting faculty Information**
  - Department
  - Supervising Faculty
    - This should be the department that the faculty member is assigned too
